PROFESSIONAL SUMMARY

BCA student graduating in 2027 with hands-on experience in **Python, Java, SQL, Flutter, and web development**. Built real-world applications and data analytics projects, with a strong interest in **software development, Data Science, and AI**. Won a **Consolation Prize at a National-Level Hackathon** and **2nd Prize at the Open Innovation Tech Fest (YCCE Nagpur)**. Also served as **Class Representative for 60+ students** and Technical Co-Head of the Computer Application Forum.

EDUCATION

Bachelor of Computer Applications (BCA) JD College of Engineering and Management, Nagpur
5th Semester | Batch of 2027 | CGPA: 9.33

12th Grade (HSC) — Shri Mathuradas Mahuta College of Science | 2023

10th Grade (SSC) — Green City High School | 2021 | 78%

LEADERSHIP & ACHIEVEMENTS

- **Class Representative (CR)**, JD College of Engineering and Management — Coordinated, managed, and served as the primary communication bridge between a batch of 60+ students and college management.
 - **Consolation Prize Winner**, National Level Hackathon hosted by NIT Nagpur (NIT).
 - **2nd Prize Winner**, Open Innovation Tech Fest (Inter-College Event) hosted by YCCE Nagpur.
 - **Technical Co-Head** in Computer Application Forum.
-

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, C, Dart
- **Development:** Flutter, HTML5, CSS3, Bootstrap
- **Backend & Database:** SQL, PostgreSQL, Supabase, REST APIs
- **Data & Analytics:** Pandas, NumPy, Power BI, Fundamental Data Science
- **Systems & Tools:** Linux, Git, GitHub

PROJECTS

CampusHub — Smart College Management & Timetable Application (Flutter, Dart, Supabase, PostgreSQL)

- Built a cross-platform college application for timetable management, student/faculty workflows, notices, notes, and role-based access.
- Implemented database-backed data handling with Supabase/PostgreSQL and authentication/authorization concepts for different user roles.
- Focused on responsive UI integration, structured state management, and application performance.

Responsive Web Application with SQL Backend Integration | *HTML, CSS, Bootstrap, JavaScript, php*

- Built a structured, responsive web application using HTML, CSS, Bootstrap, and JavaScript for the frontend.
- Connected the user interface to an optimized SQL backend database, enabling seamless data storage and retrieval.

Enterprise Data Analytics & Visualization Dashboard | *Python, Power BI*

- Developed a data processing project analysing datasets using fundamental Python libraries.
- Generated enterprise-style visual reporting architecture in Power BI to solve operational data visibility problems.
